GUIDELINES FOR SUBMITTING CONTENT

1. Visit https://wayanadiitm.github.io/ml/news/article-showcase-contest and click on the `**Make submission**` button. This will redirect you to our submission portal.

2. Click on the Google Sign-in icon and select your IITM **Student email** address to login.

3. Click `Validate Profile & Continue`. Once verified, you will be able to view the participant dashboard which will have 3 tabs/sections - `**Upload submission**`, `**Instructions**` and `**My submissions**`.

We advise you to go through the Instructions section once before making the content submission.

FAQs have also been mentioned there.

- Goes without saying, content must be original i.e. written by you and free from any copyright claims by third parties. No plagiarism pls, urgh!
- The content should be related to AI, ML, programming or any interdisciplinary domains.
- Articles should not have been posted elsewhere.
- Please ensure that the work is free from AI-generated content (like GPT etc).
- Regrettably, English will be the only language accepted this time.
- Submission must be a PDF FILE ONLY.
- You can make one submission only. You can revise and submit it anytime before deadline.
- It should be crisp, try to align with this page limit - max. number of pages can be 3. Cite references wherever applicable.
- Acceptance to showcase a blog on our site depends on the initiative core team and whatever decided is final. No queries to be entertained about this.
- If the submitted article is accepted from our end, the same cannot be posted/shared in other platforms.

Issues in PDF submission?

If you get a 'error uploading file' message after submission, encryption and processing failed due to some reasons. Please Refresh/CTRL+F5 and try re-uploading the file freshly and submitting it again. You can logout, clear the site cache, cookies and use Incognito mode as well. If none of these work for you, please write to us at wayanad-ml@ds.study.iitm.ac.in.

How to ensure a successful submission?

If you get a 'successfully submitted' message after submission, it's fine. Please cross-check from the 'My Submissions' tab for the submission history. All records should reflect there along with the uploaded time.

4. Click on the `**Upload submission**` tab. Make sure that the PDF file is in your system from where you've logged in. Portal is responsive on mobile devices as well. You can either click on the `Upload` to open the file-selector from your system or directly drag and drop your file in the upload area.
